INFLECTIONAL FORMS LIST

includes all the standard inflectional forms for nouns, verbs, adjectives, postpositions, conjunctions, etc. Each form will be annotated with the lemma (root form), POS, and morphological attributes (tense-mood, affirmative, person, number, case, degree, possessive-person, possessive-number, cooperative, modality, copulative).

DERIVATIONAL FORMS LIST

includes all the standard derivational forms including comparatives and superlatives. Each form will be annotated with the lemma (root form), POS, and morphological attributes (tense-mood, affirmative, person, number, case, degree, possessive-person, possessive-number, cooperative, modality, copulative).

EXTENDED FORMS LIST

includes the result of extending the inflectional and derivational forms lists as a result of considering additional morphological phenomena such as clitic pronouns and modality affixes. Each form will be annotated with the lemma (root form), POS, and morphological attributes (tense-mood, affirmative, person, number, case, degree, possessive-person, possessive-number, cooperative, modality, copulative).

About Bitext

Bitext has broken through the barriers that block multi-language text analysis. The company’s Deep Linguistics Analysis Platform supports 77 languages at a lexical level and +20 at a syntactic level and makes the company’s technology available for a wide range of applications in Artificial Intelligence, text analytics and the new wave of products designed for voice interfaces such as chatbots and assistants.

NAMED ENTITIES FORMS LIST

includes the data regarding named entities comprising person names, places, companies and organizations. Each form will be annotated with the lemma (root form), POS, and morphological attributes (tense-mood, affirmative, person, number, case, degree, possessive-person, possessive-number, cooperative, modality, copulative and entity-type).

FREQUENCY INDICATION

includes the data regarding the relative frequency of appearance for the words in the above lists in the given language. The relative frequency could be in the range of 0-255, or as requested.

OFFENSIVE LANGUAGE FLAG

includes information per word indicating if the word might be considered offensive in certain contexts.

VOLUME OF LANGUAGE DATA

- Total number of lemmas: 10,000 lemmas
- Total number of forms: 2 million forms
  - Verbs: 1,000,000 forms (50%)
  - Nouns: 800,000 forms (40%)
  - Adjectives: 150,000 forms (7%)
  - Other: 50,000 forms (3%)
